WHITNEY'S WEEKLY BUDGET OF NEWS

Remarkable Jointed Snake Discovered by Mr. Kelly.
SOME SPANISH SYMPATHIZERS
Returned Republicans at Montrose.
Fred Wright's Congressional Boom Started—War on Paper—Susquehanna County News—Judge Searle Will Succeed Himself—Railroad News.

Special to the Scranton Tribune.
Susquehanna, March 1.—Near Stillwater, last October, Lumberman Frank Kelly, came across a "jointed snake," a rarity in this section. When attacked this strange reptile flies in pieces, each part taking care of itself. When Kelly encountered this specimen, to his utter amazement it broke all up, each section jumping off in different directions. In the course of an hour Kelly returned from Forest City and he found the snake all together, except the tail piece. After waiting a few minutes he saw the tail coming up to join the body, taking sharp, quick jerks. It came nearer and nearer until within a few inches of the three-quarter snake. When it gave a sudden jump and was hitched on in its proper place, with a noise resembling the popping of a cork. Kelly knocked it to pieces several times, and each time it came together again. He carried his amusement to a far, however, in throwing the tail piece of the snake across a creek, "just to see," he said, "how long it would take to catch up." But it never caught up. Kelly carried the snake to his home and put it in a box in a warm room, and a new tail is growing out to replace the other. A local naturalist is of the opinion that the head will grow on the detached trunk, as there will be two snakes instead of one.

TRANSPORT 'EM, B' GOSH.
Up to date, but one or two Susquehanna people have been found defending Spain in the present contention with the United States. Such a people dishonor the land that gave them birth, and which daily shelters, feeds and protects them and theirs. Transportation to Spain would be light punishment for the crime of treason and base ingratitude.

"REFORMED" OR GALVANIZED REPUBLICANS.
Messrs. T. J. Davies, B. F. Jones, W. E. Merseor Charles A. Stearns, A. S. Wadde, T. A. Roberts and E. H. True, of Montrose and elsewhere in the county, are cut with a circular letter, in which they declare that ring rule is driving the state and county to the demilitarized bow-wows, or words to that effect. They advise all disgruntled Republicans and all anti-machinists to rally to the caucus and give the ringers a Waterloo. Referring to county matters, the circular mentions the fact that there is a bonded indebtedness of \$9,000, and cites it as an instance of "extravagance." That bond was given to pay for a county bridge between Susquehanna and Oakland, and people hereabouts do not consider its creation a bit of extravagance. Several names and vicinity Republicans will have to have another kind of bait. In the meantime, war is on, and there is red blood on the face of the moon.

HE'S ALL RIGHT.
In the coming Republican convention, C. Fred Wright, of Susquehanna, will be nominated for congress. Mr. Wright possesses the essential qualifications for a legislative and executive position. He should and probably will receive the nomination in the congressional conference. He is a winner. He is all right!

Willie H. Grant, youngest son of Mr. and Mrs. Horace Lamb, formerly of Susquehanna and New Milford, died Saturday at Keene, New Hampshire, February 21, in his nineteenth year.
The funeral of Mrs. Austin Stanton occurred from the family residence in Oakland township on Sunday afternoon.
The elegant new Presbyterian church edifice will be dedicated on Thursday, March 24, with appropriate exercises. The morning sermon will be preached by Rev. Dr. Edward Taylor, of Binghamton, and the afternoon sermon by Rev. Dr. Nichols, pastor of the First Presbyterian church in Binghamton. In the evening there will be addresses by former pastors of the church, a musical programme and other pleasant features.
A military company is being organized in this place, the members agreeing to serve one year in case of war between the United States and Spain. Now, who's afraid?

In the Baptist church on Sunday morning the hand of fellowship was extended to twenty-eight new members.
Susquehanna council, No. 384, Catholic Benevolent Legion, will hold its first annual ball in Hogan opera house, April 29.
AMOS HITS THE BULL'S-EYE.
At a banquet in New York city, a few evenings since, Congressman Amos J. Cummings responded to the toast, "The Navy."
It was a strong argument in favor of strengthening the fleet and bringing it up to the highest standard maintained by the nations of the world. In finishing he said: "I simply wish to say that while that Starry Flag is floating over the sunken Maine I believe the people of the United States will hold the administration responsible for their honor, and that the administration is willing to be held responsible; and as a result of the investigation which is now being conducted by Captain Sampson and his associates, it is discovered that the Maine was blown up by a submarine mine placed there by the Spanish government or with the knowledge of the Spanish government, that the flag that floats above the Maine within two weeks thereafter will float above Moro Castle and its surroundings."

THEY WERE BROTHERS.
No affidavit go with this story, but it is said to be a true one. A tramp recently applied to a vicinity minister for food, and the latter saw an opportunity to advance his work, and he said to the tramp: "If you will repeat this prayer I will give you a good meal."
"But I don't know it," said the tramp.
"Then I repeat it after me. Our Father—"
"Whose father?" asked the tramp.
"Why, your father."
"Then we must be brothers," said the tramp.
"Yes, we are brothers."
"Then, if you are my brother and I am your brother, cut that bread and cut it mighty quick and cut the slices good and thick!"

THE MARKETS.

Wall Street Review.
New York, March 1.—The stock market took on no well defined character today until after the publication of a statement attributed to the secretary of the navy that the element of Spanish official responsibility for Maine explosion might be considered to be eliminated from the situation. This was in the last hour of session and the whole short interest apparently rushed to cover the short lines that have been put out in the last few days on the developments following the Maine disaster. There had been covering of shorts early in the day in continuation of yesterday's movement but a light later cover short selling developed on the theory that the market would certainly sag again after the large short interest had been increased. The market had apparently swung to a standstill and was rather aimless without yielding. A buying movement set in on Monday and trading took on the appearance of a runaway bull market. The whole list felt the upward movement to a very noticeable extent and the bulk added to the very substantial advance already achieved making a showing of very striking gains ranging from 1 to 4 points in the general list and above that in exceptional cases.

IN SUSQUEHANNA COUNTY.
It is said that John M. Kelley, esq., of Montrose, will defend Eagen and Shev, the self-confessed murderers of Farmer Andrew J. Pepper, of Rush.
Am. Tobacco Co. vs. Van Warner, esq., of Montrose, has thought the matter over and concluded that he would prefer being a representative at Harrisburg to the district attorneyship. In a lengthy address he announces his candidacy.
Forest City is looking to a free bridge and increased representation in the political county conventions. Insultate borough, would not one suffice?
Dr. C. H. Hakes has removed from Montrose to Broken Bow, Nebraska.
Many a student cut over the struggle for the postmastership and, incidentally, the possibly impending war.
Miss Nellie Washburn, formerly of Wellsboro, has been appointed principal of the Soldiers' Orphans' school in Harrisburg.
G. S. Barber, of Springville, issues the usual newspaper ukase announcing that his wife, Mary Jane, has "left his bed and board."
Barker Brothers, of Franklin township, are shipping fine Devon stock to Texas.
Olson J. Turrell, years ago a prominent Montrose merchant, died in a railroad hospital at Salem, Oregon, October 17. His widow is in an insane asylum in that city.

WAR!!!—ON PAPER.
Forge your pruning hooks into swords! After the New York Journal gets through with Spain, Uncle Sam may have to have a brush with the remains.
Some of our citizens are ready to fight Spain at the drop of the hat. Some others have the bump of discretion fully developed. They seem to believe that a live coward is better than a dead hero.
All the same, let's keep cool. When Uncle Sam knows beyond question that the Maine was blown up by Spanish minions, he will surely knock half-civilized, treacherous, blustering, bankrupt Spain out of the sea and off the map. In the meantime, trust in McKinley and congress, don't get hot in the collar—but keep your powder dry!
"God reigns, and the government at Washington still lives."
"Divide and conquer" may in our own native land, to the rest of the world we are one."

MOTTEN'S PASTIME.
Frank Motten has just returned from Klondike. He tells a reporter of the Binghamton Herald that "the stories of the hardships in the Klondike are simply ridiculous." Mr. Motten told the reporter that he "crawled on his hands and knees over two miles of snow and ice, and accumulated an ice jar 20 feet high." No hardships about that! Just a little diversion, as travel.

RIGHT TO THE POINT.
There is meat in this extract from the Chicago Journal:
There are worse things than war, ignominious peace is more destructive of a nation than the loss of battleships and men. When the chink of the dollar drowns the cries of tortured women, and stifles the righteous indignation of free people as it threatens to do to-day, there is more cause for apprehension than there would be if shells were screaming over Wall street.

PERSONALIA.
Mr. A. A. Brown, the Scranton Tribune's valued scribe at Factoryville, was in Susquehanna on Monday, enquiring into the merits of "Sunlight" soap. He is a pleasant gentleman to meet, and he promised to come again and stay longer. While there's life there's hope.
Judge Searle is sure to succeed himself. He can't be duplicated in all this section. Nobody appears to want anybody else for judge—and let's us make it unanimous.
William M. Post, esq., of Montrose, is not only one of the ablest lawyers in this section, but he is the youngest man of his age in the state. He is a genial gentleman, but his political views are perpetually and irreparably wrong. Of late he has been worshipping the silver goddess. For several years he was a prominent and honored resident of Susquehanna, but he removed to Montrose in order to spend his declining years where it was quiet.

RAILROAD SUNDRIES.
Richard J. McCarthy, for thirteen years foreman of the Erie holler shop in Susquehanna, is to-day succeeded by John Pond, of Meadville.
It is said that the Erie car, by a near route across Jersey and a cut across Wayne county from Mast Hope to Susquehanna, shortens its route forty miles between New York and Buffalo.
There is a rumor that the Delaware and Hudson road, in order to avoid the heavy grade between Binghamton and Ninevah, will run its heavy trains over the Erie tracks from Binghamton to Lansboro, thence by its own tracks to Ninevah. The grades near Windsor and Ninevah are to be reduced.
The village of Port Jervis and the Erie are at loggerheads, and the Erie threatens to remove its shop to Lackawanna and make that the terminus of the Delaware and New York divisions. Wouldn't that be a Klondike for little Lackawanna? Whitney.

Buffalo Live Stock.
Buffalo, March 1.—Cattle—Nothing doing; prime to extra choice finished export steers, \$3.25 to \$4.00; good to extra choice fat steers, \$4.25 to \$4.50; fair to good mixed butchers' stock, \$3.50 to \$4.00; good fat cows, \$2.50 to \$3.00; common old cows, \$2.00 to \$2.50.
Hogs—Slow; Yorkers, good to choice, \$4.20 to \$4.25; roughs, common to choice, \$3.60 to \$3.70; pigs, common to choice, \$3.00 to \$3.50; sheep and lambs—Active; full grown, \$4.50 to \$5.00; extra, \$5.00 to \$5.50; sheep, choice to selected wethers, \$4.50 to \$5.00; culls to common, \$3.25 to \$3.50.
New York Live Stock.
New York, March 1.—Beaves—No trading; firm. Calves—Nominal; fair to good veals quoted \$4.00 to \$4.75; sheep and lambs—Very firm; good sheep, \$4.00; exports, dull, \$4.50; lambs, \$5.50 to \$5.75; firm for good medium weights; steady for other quotations, \$1.25 to \$1.50.
Chicago Grain Market.
Chicago, March 1.—Wheat—Steady and weak by turns today, but closed on top of advance. May showing 3c advance and July a gain of 1/4c. Support from the Letter interests was prominent at times, but there was plenty of influential bull news. The big short interest formed last week was evidently far from eliminated. Corn was strong and advanced 1/2c. Oats also showed strength, closing 1/2c. higher. Provisions scored advances.
Chicago Live Stock.
Chicago, March 1.—Cattle—Firm at \$1.20 to \$1.25; bulls, \$2.75 to \$3.00; calves, \$1.60 to \$1.75; Hogs—Active at \$3.50 to \$4.00; pigs, \$3.50 to \$3.75; sheep and lambs—Active; sheep, \$4.50 to \$4.60; lambs, \$4.25 to \$4.50; receipts—Cattle, 4,000 head; hogs, 25,000 head; sheep, 15,000 head.
Oil Market.
Lima, O., March 1.—The price of crude oil continues its upward flight and received another boost by an advance again today of 4 cents per barrel, making North Lima oil 60 cents; South Lima and Indiana oil, 55 cents. Pennsylvania oil also went up 4 cents and is quoted at 44 cents. Such a gain of 1/4c. Support from the Letter interests was prominent at times, but there was plenty of influential bull news. The big short interest formed last week was evidently far from eliminated. Corn was strong and advanced 1/2c. Oats also showed strength, closing 1/2c. higher. Provisions scored advances.

First Mortgage Collateral Trust 5 PER CENT. GOLD BONDS OF THE New Mexico Railway and Coal Co.
A Limited Number of These Bonds Are Now Offered for Sale.

The mortgage securing these bonds covers the railroad now under construction and rapidly nearing completion, from El Paso, Texas, about 160 miles north to the Salado Coal Fields, in New Mexico. The road traverses a country rich in minerals, including gold, silver, copper, iron, and will open up the largest bodies of coal and timber in the Southwest. For its traffic resources the road will rely on the deposits of coal now owned by the company, and also covered by its mortgage as well as an extensive timber properties, all situated north of the Salado Coal Fields. The country has wonderful possibilities for mineral development. Hundreds of prospectors, some of them arranging for the investment of considerable foreign capital, are already engaged in the development of the mineral properties in anticipation of the outlet thus to be afforded for the ores to smelters and stamp mills. Reports have been made on the traffic resources of the country by experts W. A. Lathrop, Esq., Superintendent of the Lehigh Valley Coal Company; R. C. Hills, Esq., Geologist and Mining Engineer, of Denver, Colorado, and others, copies of which will be furnished on application.
